I support bill # 6590 because

As a Commissioner on the QVHD, I was surprised to learn that Tattoo Artist and/or the premises are not licensed by the State of CT.

In going over information that I have read recently, I have found out that the State of CT also has no guidelines for technicians to follow.

In checking other States such as FL, CA, etc they have strict licensing guidelines for tattoo artists.

It does surprise me that I see so many young people today with tattoos and with all the different diseases that they could possibly get from tattooing, I cannot believe that our State does not consider protecting its citizens from the many diseases.

Please consider this important bill #6590 to help protect our citizens.

Very truly yours,

Myra M. Rochow
